

A medicine or drug is "any pill, powder, potion, salve, or other preparation intended by the manufacturer for human use and which purports on the label to have medicinal qualities." See 86 Ill. Adm. Code 130.310. (This is a GIL).

October 18, 1999

Dear Ms. Xxxxx:

This letter is in response to your letter dated September 20, 1999. The nature of your letter and the information you have provided require that we respond with a General Information Letter, which is designed to provide general information, is not a statement of Department policy and is not binding on the Department. See 2 Ill. Adm. Code 1200.120(b) and (c), enclosed.

In your letter, you have stated and made inquiry as follows:

We were questioning the taxability status of our two new products 'PRODUCT1' and 'PRODUCT2'. Enclosed you will find a fact sheet along with a label and a detailed description of our new products. We would greatly appreciate if you could render a ruling in writing as to whether our products are taxable or not in your state.

We thank you in advance for your help and should you require any further information regarding this matter, please feel free to contact me at ####.

For your information, we have enclosed a copy of 86 Ill. Adm. Code 130.310, which is the Department's regulation for "Food, Drugs, Medicines and Medical Appliances." All gross receipts from sales of tangible personal property in Illinois are subject to Retailers' Occupation Tax unless an exemption is specifically provided.

Medicines and medical appliances are not taxed at the normal rate of 6.25%. These items are taxed at a lower rate of 1%. See the enclosed copy of 86 Ill. Adm. Code 130.310. Items subject to this lower tax rate include prescription and nonprescription medicines, drugs, medical appliances, and insulin, urine testing utensils, syringes, and needles used by diabetics, for human use.

A medicine or drug is defined as any pill, powder, potion, salve, or other preparation intended by the manufacturer for human use and which purports on the label to have medicinal qualities.

A medical appliance is defined as an item that is intended by its manufacturer for use in directly substituting for a malfunctioning part of the body. See part (c) of Section 130.310. Medical devices that are used for diagnostic or treatment purposes do not qualify for the lower tax rate.

ST 99-0316-GIL
Page 2
October 18, 1999

The PRODUCT1 and PRODUCT2 are products that magnetize water when the water passes through the products. They do not substitute for a malfunctioning part of the body, therefore they would not be considered medical appliances.

I hope this information is helpful. The Department of Revenue maintains a Web site, which can be accessed at www.revenue.state.il.us. If you have further questions related to the Illinois sales tax laws, please contact the Department's Taxpayer Information Division at (217) 782-3336.

If you are not under audit and you wish to obtain a binding Private Letter Ruling regarding your factual situation, please submit all of the information set out in items 1 through 8 of the enclosed copy of Section 1200.110(b).

Very truly yours,

Melanie A. Jarvis
